**FOR WALL AT 507 W. GALLATIN:**

Mayor Gottman told the council that they need to agree on an amount to be included in a TIF grant for Grubaugh's repairs to his building at 507 W. Gallatin St.

Paslay said that the TIF committee recommended a \$100,000 grant, then the city received an estimate for \$160,000 from Grubaugh, who is asking for an advance payment of \$20,000 and the balance of the grant upon completion of the project.

The project would include excavation, removal of wall penetrations by plumbing, removal of paint and plaster over brick, demolition of the upper east wall to affect the stair stepping and capping off of the wall, and all restoration work required to bring wall back to what it was.

Lester asked how many square feet the project area is and Grubaugh responded by saying that he doesn't figure by

square feet.

Lester said, that he felt that the estimate for tuckpointing is way too high.

Lester did not think there was \$160,000.00 of work there. Lester felt that we could get all of that professionally done for \$70,000.00.

Hubler sked Grubaugh if he had insurance on the building. Grubaugh said that he did but the insurance is waiting to see what the city will pay first.

Hobler said that he didn't feel that was right, that was a storm that started this and the insurance should take care of their business before we jump in there and try to bail them out.

Swarm said that to get us off of dead center, he made a motion to recommend \$70,000. in the TIF agreement and Crawford seconded the motion. Motion carried.

**DISCUSS GRUBAUGH TIF REQUEST
